RESIDENCES MIAMI

"TRUE STYLE IS SINGULAR  
AND TIMELESS. IT CAN  
BE SENSED BUT CANNOT  
BE DESCRIBED."

ARRIGO CIPRIANI

Positioned on a privileged location at the gateway to the vibrant Miami neighborhood of Brickell, Cipriani Residences Miami epitomizes the timeless Italian spirit, style, and service for which the brand is so revered. Residents will enjoy a life of effortless elegance and convenient access to the variety of experiences this exciting metropolis has to offer.

# THE CIPRIANI LEGACY

The Cipriani legacy began when Giuseppe Cipriani Sr. opened Harry's Bar in Venice in 1931. Warm and inviting, the small room was soon crowded with artists, aristocrats, and writers who came for the martinis and stayed for the conversation. As it attracted everyone from Ernest Hemingway to Katharine Hepburn, Harry's became famous for its charming atmosphere and discreet, anticipatory service. To the delight of his patrons, Mr. Cipriani is credited with the invention of Carpaccio and Bellini cocktails, both of which have become key trademarks of the Cipriani dining experience.

The intimate yet international Venetian atmosphere now anchors the Cipriani brand, beloved for its unmatched hospitality and celebration of timeless indulgences. Cipriani has established itself in cities around the world, from restaurants in Monte Carlo and Mexico City to Casa Cipriani in New York City. Cipriani Residences Miami continues this storied tradition, with residences that are true to its convivial, stylish spirit, and exclusive experiences that will delight its owners.

# TO SERVE IS FIRST TO LOVE

To live in Cipriani Residences Miami is to enjoy those signature service standards first established at Harry's Bar in 1931 and perfected through four generations. Individual tastes are indulged and needs are anticipated with an intuitive understanding of when and where their attention is required.

Masterfully designed in collaboration with Cipriani, the amenities serve as an extension of one's home. Residents will have exclusive access to dining services by Cipriani, available both in-home or in private dining rooms. Dining services extend to the resort deck, where residents can enjoy a Bellini on the sun terrace or lounge in cabanas beside the two swimming pools.

Other thoughtful amenities include a spa with sauna, screening room, state-of-the-art fitness center, pickleball court, and golf simulator. A range of conveniences such as a hair salon, dog park, away-from-home care, and valet parking — ensure everyday life is as effortless as possible.

# ELEGANT RESIDENCES

The residential interiors are considered and sophisticated. Primary bedroom suites include gracious walk-in wardrobes and primary bathrooms with freestanding sculptural bathtubs and glass-enclosed showers. The eat-in kitchens are well appointed with custom Italian cabinetry and Wolf Sub-Zero appliances including wine coolers and integrated refrigerators. Epitomizing Cipriani's timeless style, these homes provide all that is necessary to live a life of effortless elegance.

Masterfully crafted by a renowned design team, these elegant homes offer true comfort and privacy, inspired by their location while staying true to Cipriani's distinguished style. Views of Biscayne Bay, Simpson Park, and the Brickell skyline are complemented by 10-foot ceiling heights and floor-to-ceiling windows. Each residence includes gracious terraces – with glass railings for unobstructed vistas – accessible from living rooms and primary bedrooms.

## ARQUITECTONICA

Arquitectonica was founded in 1977 by Bernardo Fort-Brescia and Laurinda Spear. The award-winning firm has worked in 59 countries but left its strongest mark on Miami, where it has transformed the skyline with a bold vision of contemporary architecture.

Known for expressive, humanistic designs, Arquitectonica has captured the city's singular spirit, apparent in early sensations like the Pink House and the Atlantis and modern landmarks like Brickell City Centre. The curved, organic form of Cipriani Residences Miami is the latest example of the firm's trademark panache.

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with these defined unit boundaries, is set forth on Exhibit "3" to the Declaration. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development. All depictions of appliances, counters, soffits, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit. 🏠

Stated square footages and dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the square footage and dimensions that would be determined by using the description and definition of the "Unit" set forth in the Declaration (which generally only includes the interior airspace between the perimeter walls and excludes all interior structural components and other common elements). This method is generally used in sales materials and is provided to allow a prospective buyer to compare the Units with units in other condominium projects that utilize the same method. For your reference, the area of the Unit, determined in accordance with these defined unit boundaries, is set forth on Exhibit "3" to the Declaration. Measurements of rooms set forth on this floor plan are generally taken at the farthest points of each given room (as if the room were a perfect rectangle), without regard for any cutouts or variations. Accordingly, the area of the actual room will typically be smaller than the product obtained by multiplying the stated length and width. All dimensions are estimates which will vary with actual construction, and all floor plans, specifications and other development plans are subject to change and will not necessarily accurately reflect the final plans and specifications for the development. All depictions of appliances, counters, soffits, floor coverings and other matters of detail, including, without limitation, items of finish and decoration, are conceptual only and are not necessarily included in each Unit.
